Why Szeged?

Szeged is situated near the Southern border of Hungary, on the banks of the River Tisza. It is a city with deep historical and cultural roots, inhabited since Roman times. Szeged was rebuilt after the great flood in 1879 when most of the city was destroyed by the River Tisza. By Hungarian standards Szeged is a large city with its population of 160,000.

Szeged is a thriving university town and the cultural and economic centre of South-Eastern Hungary. The salami and paprika business has brought fame and credit to the city. Szeged has a museum of history, art galleries, theaters, movies, large parks, famous botanic garden. The National Theater of Szeged, its Contemporary Ballet Company and Symphony Orchestra provide a full season of entertainment. The city is also famous for its open-air theater and the city centre is marked by the twin spires of the Roman Catholic Cathedral (Dóm).

Szeged is often called the “City of Sunshine” as it enjoys an average of 2000 hours of sunshine annually.

University of Szeged

The University of Szeged is one of the largest, top universities in Hungary. Its institutional and intellectual history goes back to 1581 when the Academia was found in Cluj, contemporary Romania. Due to the political

circumstances after the first WW, the University found a new home in Szeged in 1921.

In the year 2000, all universities and colleges were integrated into one educational institution, the University of Szeged.

Today, the University comprises 12 faculties with 2,300 faculty members, 7,000 employees and 23,000 students. It has 600 undergraduate training programs and more than 100 Ph.D. programs in 19 Ph.D. schools.

10 reasons to study at the University of Szeged

1. *Excellent education at a distinguished institution – “University of National Excellence”*
2. *Be part of the faculties where outstanding discoveries are made*
3. *Valuable degrees*
4. *Prestigious place in University rankings*
5. *University Campus situated in the heart of the city*
6. *Szeged – “the City of Sunshine” as an ideal place to live and study*
7. *Multicultural environment*
8. *Rich Social and Cultural Life*
9. *Reasonable costs*
10. *Green University*

International Programs

The University has been training doctors in English language for many years. The English language Program offered for foreign students at the Faculty of Medicine and the Faculty of Pharmacy started in the academic year 1985/86 and 1986/87 respectively. In 1990, English language Foundation Year Program was introduced. In the academic year 2004/05 the English language Dental Medicine Program was launched.

The University also offers the German language Medical Program for the first two years since 1999 as well as the German language Foundation Year Program from the academic year 2004/05.

Our national and international reputation for academic excellence, combined with our world-class facilities, attracts international students from around the world. The faculties host approximately 1,400 international students studying in our international programs.

Our teaching system is very traditional. We place great emphasis on the theoretical subjects in order to provide a solid basis for the clinical training. The programs are designed to unify the basic and clinical sciences, as it is believed that scientific and professional development cannot be sharply separated but should proceed concurrently throughout the programs. Special Ph.D. programs are arranged, along with individual postgraduate training for Hungarian and foreign colleagues.

In short, our main mission is to train well-educated professionals.

English Language Programs

Medical Program

The Medical Program covers six years, that is, 12 semesters. The first two years serve as the foundation of basic medical knowledge. From the third year theoretical training is extended

with regular clinical practice, where students intensively take part in the work of the clinical departments and the teaching hospitals. The Faculty's excellent scientific laboratories offer the students a wide range of opportunities to join high standard scientific research activities. In the last two semesters – the clerkship year – students perform clinical rotations of 40 weeks. Our medical training center is to aid medical students by enabling them to practice the methods of various procedures on dummies throughout their academic studies. At the conclusion of the program (State Board Examination) the title Doctor of Medicine (medical doctor; Dr. Med.) is granted for those who have met all the requirements of the training.

Dental Medicine Program

The five-year program (10 semesters) is designed to unify the basic and clinical sciences. In the three years the students are taught basic sciences – medical and dental courses – which are the foundation of clinical dentistry. From the third year on more emphasis is placed on the

study of dental diseases and their treatment. The last two years serve the intensive clinical study of each of the various disciplines of dentistry with emphasis on the assessment and management of patients. Furthermore, throughout their training students participate in elective programs, clinical conferences and hospital-based practices. After the successful completion of the program (State Board Examination), students are awarded the title Doctor Medicinæ Dentaire (dentist; D.M.D.). Teaching is performed at the departments of the Medical and Dental Faculties. The Dental Faculty, which is the regional center for dental care in the south-eastern region of Hungary, has approximately 30 graduates each year in the English language program.

Statement of Non-Discrimination

The University does not discriminate on the basis of age, race, color, national origin, ethnicity, religion, creed, sex, sexual orientation, political affiliation, marital status or physical disability.

Pharmacy Program

The Academic program offered by the Faculty of Pharmacy extends over a period of five years (10 semesters) and leads to the degree Doctor of Pharmacy. It begins with an introduction to the basic sciences providing a basis for further pharmaceutical studies. In the second part of the program, students take part in general and special pharmaceutical education at the university departments, teaching pharmacies, institutes, hospitals and clinical pharmacies, laboratories and pharmaceutical works. The faculty seeks to educate its undergraduates by promoting their intellectual development and their progressive accumulation of competence in all fields of modern pharmacy. After the successful completion of the program the title of Doctor Pharmaciae is awarded (pharmacist, Dr. Pharm.). The quality of the training is outstanding compared to similar Hungarian and European pharmacist training centers. The Faculty takes part in international research activities too. The training material is continuously updated in light of the most recent research results. The lecturers are internationally respected professionals and active researchers.

Foundation Year Program (Preparatory Course)

This program is organized for students who feel unprepared for the regular degree programs or who need help in reviewing basic sciences in English language to prepare for the final examination at the end of the course.

Subjects taught are Biology, Chemistry including Chemical Calculations, Physics, Mathematics, Medical English, Medical Latin and Hungarian language.

Students who participate in our Foundation Year Program have a good chance to be admitted to the first year Medical, Dental Medicine and Pharmacy Program of the University of Szeged in the forthcoming academic year. However, in order to be admitted to one of our degree programs you need to pass the final examination with good results.

The duration of the course is eight months, starting in October.

German Language Programs

We offer the first two years of the six year Medical program in German language, furthermore the Foundation Year Program (Preparatory Course) is also available in German language.

For more information regarding the German Language Programs, please contact the German Admissions Office:

Tel.: +36 62 546-865

E-mail: german1.fs@med.u-szeged.hu

Website: www.szegedmed.hu/de

Entry Requirements

Applicants are required to be over the **age of 18** in the year of application.

Applications are accepted from **graduates of accredited high schools** or colleges/universities. Both oral and written competence in English language is part of the entry requirements for the University. Applicants who have studied Biology, Chemistry (General, Inorganic, Organic) and Physics in high school are given preference.

According to the decision of the Admission Committee of the Faculty of Medicine, the Faculty of Dentistry and the Faculty of Pharmacy of the University of Szeged, students who have failed any subject in their final year of their high school studies are not entitled to apply to our programs.

Students wishing to study in programs we offer for foreign students at the University of Szeged do not need any prior knowledge of Hungarian.

Transfer from other Universities

Students who have successfully pursued medical, dental medicine or pharmaceutical studies at other accredited universities can apply for admission without being obliged to take an entrance examination. Admission to an upper year might be possible if subjects of previous studies identical or similar (at least 75%) to the curriculum of the University of Szeged are approved. Please note that at least 50% of the students complete medical/dental medicine/pharmacy studies must be fulfilled at the University of Szeged. Relevant curriculum can be downloaded at www.szegedmed.hu.

Students might also be subject to sit for evaluation examinations.

Students who have pursued their previous studies in other language(s) than English must provide proof of sufficient English language proficiency. For the list of English language test results accepted by the University please visit our website at www.szegedmed.hu.

Precondition of transfer from other Hungarian universities are set by the respective Faculty.

Foundation Year Program Entry Requirements

Applicants applying for admission to the Foundation Year do not have to take part in the entrance examination; however, they need to prove English language competence. For the list of English language test results accepted by the University please visit our website at www.szegedmed.hu.

Medical, Dental Medicine and Pharmacy Programs Entry Requirements

Applicants are required to sit for an entrance examination (see page 9).

Holders of the following degrees can be exempted from sitting for the entrance examination:

1. International Baccalaureate (IB) Diploma

Students are required to achieve a grade of at least 5 in two natural science subjects studied in English language (Biology, Chemistry, Physics or Mathematics).

2. General Certificate of Education Advanced Level (GCE)

Students are required to achieve a grade of A in three natural science subjects studied in English language (Biology, Chemistry, Physics or Mathematics).

3. First Class Honours Bachelor of Science (B.S.) Degree in Natural, Biomedical, Life Sciences, Chemistry, Biology, Physics.

4. First Class Honours Bachelor of Science (B.S.) Degree in Dental Hygiene for Dentistry program.

Application Procedure

All applicants must register online at www.aas-szegedmed.hu. During the online registration process you are required to register your personal details. Communication between the applicant and the University is conducted through the online **Application and Admission System**, the AAS.

The University of Szeged website (www.szegedmed.hu) provides detailed guidance on how to complete your application. You can also contact your local representative for advice.

You have to mail your application package directly to the Admissions Office, University of Szeged (address: 12. Dóm tér, Szeged, H-6720 Hungary) or to your local representative. Prior to mailing your application package, please check which documents are required to be uploaded to the AAS.

Documents are only accepted as attested copies in English language or as certificates with an authorized English translation (including high school diplomas and transcripts). *Submitted documents cannot be returned to the applicants.*

Deadline for application is June 30, 2016.

Applicants are asked to apply as early as possible. Please note that places are offered on a first come first served basis. If you fail to fulfill the requirements indicated in your Letter of Acceptance you will be registered on the waiting list. Late applicants are considered based on place availability.

After the online registration, you can follow the procedure of your application by checking your online account at www.aas-szegedmed.hu. Make sure to remember your username and password.

Should you fail to fulfill the above requirements till the deadline indicated in your Letter of Admission, you will be registered on the waiting list.

Passport, Visa and Residence Permit

It is highly recommended to contact the Embassy of Hungary in your country before you make any travel arrangements.

Visa Free Entry

On the website of the Ministry of Foreign Affairs (www.konzuliszolgalat.kormany.hu/visa-waiver-agreements) you can find a list of those countries whose citizens are exempted from the visa obligation if they are travelling to Hungary and hold a valid travel document entitling them to visa-free travel. However, three-five days after entering the country, need to contact the Immigration Office in Szeged and apply for their residence permit. Furthermore, it is recommended to ask the Hungarian Embassy for confirmation of the information posted on the website of the Ministry of Foreign Affairs at www.konzuliszolgalat.kormany.hu/en.

Student Visa Required

Students from **outside of the Schengen Treaty Area** have to hand in their **visa application** to their local Hungarian Embassy or Consulate. Please note that the period of the Student Visa procedure takes a minimum of 30 calendar days. In order to start the procedure of applying for the Student Visa, the **Embassy** concerned **requires** the student to **submit a valid passport** (the validity of which has to exceed that of the requested visa by at least three months). Three-five days after entering Hungary, students need to contact the Immigration Office in Szeged and apply for their residence permit. For details regarding the visa application and downloading the application form please visit the website of the Ministry of Foreign Affairs at www.konzuliszolgalat.kormany.hu/en.

The Hungarian Embassy may require:

- 1. Proof of credited tuition fee.** This certificate needs to be requested from our recruiting company, College International at info@studyhungary.hu.
- 2. Proof of temporary accommodation.** This certificate needs to be requested from the University Admissions Office at apply.fs@med.u-szeged.hu.

Support for Students

Foreign Students' Secretariat

©We are here for you!

You will find student life new and exciting, but also a bit bewildering. If you've come from high school, you need to get used to being part of a much bigger community, and you may also be living away from home for the first time, with all the readjustment involved in that. You are likely to need advice and support in order to find your feet socially and academically, so we make sure that from the start you have access to our support service staffed by people who are easy to contact and who can give you guidance on the following:

- application and admission,
- orientation,
- academic regulations,
- accommodation,
- financial issues / loan,
- legal and community problems,
- residence permit / visa,
- health insurance,
- personal concerns.

Address: 12. Dóm tér, H-6720 Szeged, Hungary

GPS: 46.248587, 20.149538

International Student Union of Szeged

I.S.U.S. is an organization created for students by students with the support of the University of Szeged providing you with free, independent and confidential advice and guidance. Members can help you solve problems you may face as a student, including academic, information about housing, transportation, restaurants and more. Students are able to access the service face-to-face, via e-mail or over the phone at our on campus office. For more information about the service and contact details please visit www.isus-szeged.com.

Szeged University Medical Alumni Association

SUMAA has been established in 2014 with the philosophy in mind to unite and connect all alumni and future students and provide a base for the long term. Connect to us on social media or see who are involved in our organisation at www.sumaa.org.

Life on Campus

Fees, Additional Costs

The tuition fee includes general health insurance valid for Hungary; however, it does not include the costs of textbooks, accommodation and living expenses.

For details please see your Proof of Enrollment.

Accommodation

The University will assist freshmen free of charge in finding accommodation and signing the contract with the landlords **between July and September**. For arranging your appointment please contact us at flatrent.fs@med.u-szeged.hu.

Cost of Living

Cost of living (including board and lodging) in Szeged is approximately USD 600-1000/month.

Health Insurance

A general health **insurance valid for Hungary is included in your tuition fee**. Medical care is provided by the University doctors on campus. More information will be provided at the official registration.

Library Services

Our main university library offers you access to more than 1.8 million books, periodicals, manuscripts, microfilms, e-journals, e-books and other documents, out of which there are about 138,000 items related to the medical field. The reading rooms of the library are spread out on four floors and are equipped with an open access collection of 350,000 volumes. The reading rooms are furnished with 1000 seats and approx. 300 computers with Internet access. This is the largest library in Central Eastern Europe. The building itself also functions as a conference center. It is the largest conference center in the region that hosts national and international conferences, exhibitions and other programs. For further information please check the library's website at ww2.bibl.u-szeged.hu/index.php/en.

Open Days

Choosing your university is an important decision. The best way to find out is to come and visit us. We offer different types of visit – choose the one that suits you.

For our **virtual open day and campus tour** visit our website at www.szegedmed.hu.

Also, University of Szeged welcomes visitors all the time. Open days are organized on request for a minimum number of 10 participants. However, if you intend to visit us and would like to **meet one of our admission officers** you are more than welcome to stop by at the Foreign Students' Secretariat (address: Dóm tér 12., Szeged, H-6720). For your appointment please contact us in advance at +36 (62) 342-124 or at apply.fs@med.u-szeged.hu.

We hope that you can visit us and see what a great place Szeged is and why our students love it.

Structure of Studies

Academic Calendar, Academic Policies, Curricula

Teaching is performed under the credit system in modules.

Students have to fulfill all the requirements of a certain module in order to enter the next one. This means that a given number of credits have to be acquired in different types of courses each module:

- Compulsory Courses,
- Compulsory Elective Courses,
- Elective Courses and
- Criteria Subjects.

Students are provided a detailed suggested study plan at the time of registration.

Grading System

Five-grade system

5 (jeles)	Excellent
4 (jó)	Good
3 (közepes)	Accepted
2 (elégéséges)	Passed
1 (elégtelen)	Failed

Types of Evaluation

Term Mark (TM – gyakorlati jegy) – continuous testing of practical knowledge, 5-grade system

Evaluation (Ev – beszámoló) – evaluation of the subject matter of one semester in 5-grade system

Examination (E – kollokvium) – evaluation of the subject matter of one semester in 5-grade system

Comprehensive Exam (CE – szigorlat) – evaluation of the subject of one, two or more semesters in 5-grade system

Preliminary Exam (PE – elővizsga) – evaluation of the subject matter of one semester in 5-grade system

Academic Calendar

Degree Programs

Fall Semester:

beginning of September, 2016 through end of January, 2017.

Spring Semester:

beginning of February, 2017 through beginning of July, 2017.

Foundation Year

Fall Semester:

beginning of October, 2016 through end of January, 2017.

Spring Semester:

beginning of February, 2017 through end of May, 2017.

Suggested Study Plans* at the Faculty of Medicine

First Year

Compulsory Subjects	1 st semester				2 nd semester			
	Weekly hours		Credits	Exam form	Weekly hours		Credits	Exam form
	Theory	Pract.			Theory	Pract.		
Anatomy, Histology and Embryology	2	–	5	E	2	–	3	E
Dissection Practice	–	3	3	TM	–	3	3	TM
Histology Practice					–	2	2	TM
Anatomy Seminar	–	2	0	S				
Basic Life Support	–	2	2	TM	–	2	1	TM
Medical Physics and Statistics	3	2	4	E+S	3	2	4	E+S
Medical Chemistry	3	3	6	E+S	3	3	6	E+S
Cell Biology and Molecular Genetics	2	2	4	E+S	2	2	4	E+S
Introduction to Psychology, Basics of Nursing					1	–	0	S
Communication Skills					–	2	2	TM

Abbreviations: E – Examination, TM – Term Mark, S – Signature

Compulsory Elective Subjects: Basics in Molecular Biology, Biostatistical Calculations, Cytomorphology and Microtechnics, Developmental Genetics, Frontiers of Molecular Biology, Genetic Analysis, Introduction to Medicine, Electrophysiology, Introduction to Chemistry, Introduction to Medical Informatics, Modern Instrumental Analysis and Separation Methods, Neurocytology, Steric Structure of Biopolymers

Elective Subjects: Medical Latin Language, Chemical Misconceptions

Criteria Subjects: Hungarian Language, Physical Education, Nursing Practice

Second Year

Compulsory Subjects	1 st semester				2 nd semester			
	Weekly hours		Credits	Exam form	Weekly hours		Credits	Exam form
	Theory	Pract.			Theory	Pract.		
Anatomy, Histology and Embryology	2	–	3	CE				
Dissection Practice	–	3	3	TM				
Histology Practice	–	2	2	TM				
Biochemistry	4	2	6	E+S	4	2	6	CE+S
Medical Physiology	4	4	8	E+S	6	4	10	CE+S
Microbiology					2	3	5	E+S
Immunology					2	–	2	E
Basic Surgical Skills					1	2	3	E+S

Abbreviations: E – Examination, CE – Comprehensive Examination, TM – Term Mark, S – Signature

Compulsory Elective Subjects: Medical Physiology (Seminar), Biochemistry Seminar, Molecular Cytology and Histology, Medical Sociology, Electrophysiology, Human Embryology: Development of the Organ Systems, Cardiac Electrophysiology as a Basic Property of Cardiac Function, Molecular Developmental – Biology, Medical Anthropology, Biochemical Basics of Preventive Medicine

Elective Subjects: Body Development and Diseases and a Molecular Biological Background, Clinical Anatomy, Mathematical and Statistical Modelling in Medicine Lecture

Criteria Subjects: Hungarian Language, Physical Education, Nursing Practice

* subject to change

Third Year

Compulsory Subjects	1 st semester				2 nd semester			
	Weekly hours Theory	Pract.	Credits	Exam form	Weekly hours Theory	Pract.	Credits	Exam form
Clinical Diagnostics (Internal Medicine – Basics of Haematology)	2	–	4	E	–	2	0	S
Clinical Diagnostics (Surgery)					2	2	4	E+S
Pathophysiology	3	2	5	E+S	3	2	5	CE+S
Microbiology	3	2	5	CE+S				
Basics of Emergency Medicine	1	2	2	S+TM				
Stomatology and Oral Surgery	1	1	2	E+S				
Pathology	3	3	6	E+S	2	4	6	CE+S
Internal Medicine					3	2	4	E+S
Medical Psychology					1	1	2	S+TM
Ethics in Medicine					1	2	3	E+S

Abbreviations: E – Examination, CE – Comprehensive Examination, TM – Term Mark, S – Signature

Compulsory Elective Subjects: Advanced Surgical Skills, Microsurgery, Molecular Medicine, Pathophysiology of Sepsis at the Bedside, Electrophysiology, Molecular Developmental-Biology, Microbiological Problems in Med. Practice, Microsurgery, Pathophysiological Aspects of Laboratory Medicine, Gerontology, Cardiac Electrophysiology as a Basic Property of Cardiac Function

Elective Subjects: Animal Experiments in Medicine, Body Development and Diseases and a Molecular Biological Background, Cerebral Blood Flow and Metabolism, Chemical Misconceptions, Basic Immunopathology, Biotechnology from a Business Perspective, Mathematical and Statistical Modelling in Medicine Lecture

Criteria Subjects: Hungarian Language, Internal Medicine Practice

Fourth Year

Compulsory Subjects	1 st semester				2 nd semester			
	Weekly hours		Credits	Exam form	Weekly hours		Credits	Exam form
Theory	Pract.	Theory			Pract.			
Internal Medicine	5	2	5	E+S	5	2	5	E+S
Pharmacology	3	2	5	E+S	4	2	5	CE+S
Public Health and Preventive Medicine	2	2	3	E+S	2	2	3	E+S
Orthopedics	2	2	3	E+S				
Pulmonology	1	2	2	E+S				
Radiology	1	1	2	Ev+S	1	1	2	E+S
Surgery	2	2	3	Ev+S	2	2	3	E+S
Obstetrics and Gynaecology	3	2	4	E+S	3	2	4	Ev+S
Delivery-Room	total 3 days		0	S	total 3 days		0	S
Clinical Oncology	2	–	2	E				
Stomatology	1	2	2	E+S				
Medical Psychology	1	1	1	Ev+S				

Abbreviations: E – Examination, CE – Comprehensive Examination, Ev – Evaluation, S – Signature

Compulsory Elective Subjects: Basic Biostatistics, Introduction to Aviation and Space Medicine, Medical Informatics, Medical Molecular Biology and Genomics, Microsurgery, Nuclear Medicine, Pharmacology Cases, The Language of Effective Doctor-Patient Communication, Electrophysiology, Advanced Biostatistics, Advanced Surgical Skills, Child and Adolescent Psychiatry, Mentalhygiene, Clinical Immunology, Laboratory Diagnostics: Use of Laboratory Tests in Practice, Molecular Developmental-Biology, Oral and Maxillofacial Surgery, Social and Health Policy, The Clinical Basics of Aviation and Space Medicine, Tropical Diseases, Cardiac Electrophysiology as a Basic Property of Cardiac Function

Elective Subjects: Esthetics of the Face, Modern Approach of the Gynecological Laparoscopy, Illicite Drug Use, Biochemical Basics of Preventive Medicine, Clinical Aspects of Tropical Diseases, Modern Complex Therapy of Malignant Diseases in Clinical Practice, Intensive Course on Radiation Oncology, Chemical Misconceptions, Multidisciplinary Care of Breast Cancer, Sexual Disorders – Gynecological Aspects, Tropical Medicine

Criteria Subjects: Hungarian Language, Doctor-Patient Communication, Examination in Behavioural Sciences, Surgery Summer Practice

Fifth Year

Compulsory Subjects	1 st semester				2 nd semester			
	Weekly hours Theory	Pract.	Credits	Exam form	Weekly hours Theory	Pract.	Credits	Exam form
Anesthesiology and Intensive Therapy	2	1	1	Ev+S	2	1	2	E+S
Internal Medicine – Practice	–	2	0	S				
Internal Medicine					2	total 16	3	E+S
Infectology – Infectious Diseases	2	–	3	E				
Surgery	1	1	2	Ev+S				
Pediatrics	1	2	0	S	–	2	0	S
Pediatrics Seminar	–	2	5	TM	–	2	4	TM
Neurology	1	2	3	E+S	1	1	2	E+S
Psychiatry	1	1	2	S+TM	2	1	3	E+S
Forensic Medicine	1	2	3	E+S	1	2	3	E+S
Dermatology	2	3	4	E+S				
Oto-Rhino-Laryngology	2	3	4	E+S				
Ophthalmology					2	2	3	E+S
Urology					1	2	2	E+S
Traumatology					2	2	3	E+S

Abbreviations: E – Examination, TM – Term Mark, Ev – Evaluation, S – Signature

Compulsory Elective Subjects: Basic Biostatistics, How to use microbiology laboratory results to diagnose and treat infectious diseases: interactive – problem-based case discussions, Introduction to Aviation and Space Medicine, Medical Informatics, Medical Molecular Biology and Genomics, Microsurgery, Nuclear Medicine, Pharmacology Cases, The Language of Effective Doctor-Patient Communication, Tropical Medicine, Rheumatology, Electrophysiology, Neurosurgery, Clinical Genetics, Advanced Biostatistics, Advanced Surgical Skills, Cardiac Electrophysiology as a Basic Property of Cardiac Function, Child and Adolescent Psychiatry – Mentalhygiene, Clinical Immunology, Laboratory Diagnostics – Use of Laboratory Tests in Practice, Molecular Developmental-Biology, Oral and Maxillofacial Surgery, Social and Health Policy, The Clinical Basics of Aviation and Space Medicine, Tropical Diseases

Elective Subjects: Biophysics of Hearing, Objective and Subjective Audiometry, Diseases of the Temporomandibular System, Illicit Drug Use, Sexual Disorders – Gynecological Aspects, Modern Approach of the Gynecological Laparoscopy, Medical History Taking in Hungarian, Biochemical Basics of Preventive Medicine, Clinical Aspects of Tropical Diseases, Modern Complex Therapy of Malignant Diseases in Clinical Practice, Intensive Course on Radiation Oncology, Chemical Misconceptions, Multidisciplinary Care of Breast Cancer

Criteria Subjects: Examination of Forensic Medicine – Public Health, Thesis Consultation

Sixth Year

Compulsory Subjects	Practice	Credits	Exam form
Internal Medicine	9 weeks ⁽¹⁾	10	Comprehensive Exam
General Practice	1 week ⁽¹⁾	0	Signature
Surgery	7 weeks ⁽¹⁾	9	Comprehensive Exam
Emergency Medicine	1 week ⁽¹⁾	0	Signature

OTHER INTERNATIONAL PROGRAMS AT HUNGARIAN UNIVERSITIES

DEGREE PROGRAM

Szent István University, Budapest

Faculty of Veterinary Science

Veterinary Medicine: 5½ years, in English and German

www.univet.hu

PREPARATORY PROGRAMS

Eight-Month Foundation Year in German

University of Szeged – Szeged, Hungary

Students are reviewing basic sciences to prepare for the final examination at the end of the course equivalent to the entrance examination; furthermore, to get admission to the first year Medical Program of the University of Szeged.

More information at www.szegedmed.hu/de

One-Year Pre-Medical Program in English and German

McDaniel Europe – The Budapest Campus of McDaniel College

Students are taking selected courses from the McDaniel catalog, which can also prepare them for studies at degree programs in Medicine, Dentistry, Pharmacy, Physiotherapy, Veterinary Medicine, Nursing, and Midwifery worldwide, including universities in Hungary.

More information at www.studyhungary.hu

One-Year Foundation Program in English

Students are taking selected courses from the McDaniel catalog, which prepare them for further studies in Art History, Business Administration, Communication, Economics, Political Science, Psychology or other major fields of study or for entry into the pre-medical program.
